1. Have the students look at the graph for a few seconds.

2. Matching - 左の質問の答えとして適切なものを右から選び線をつなぎましょう。

(After the students match, have them pair up and check ( $S1 = Q$ ,  $S2 = A$  /  $S2 = Q$ ,  $S1 = A$ ). Then, check as a class - you say the answers and call on individual students to say the questions).

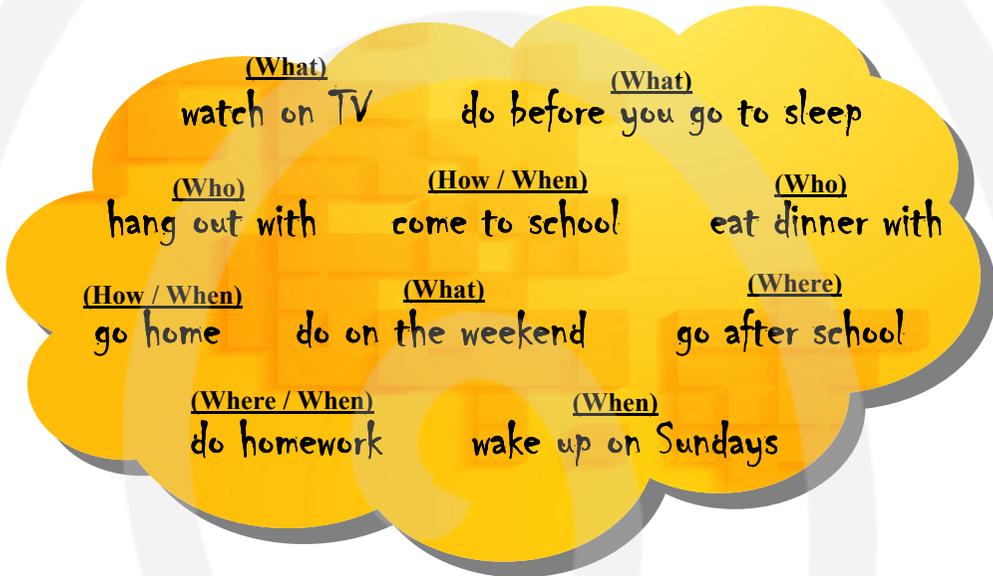

What do you usually do after school?	I usually have lunch with my friends.
When do you usually wake up?	I usually come here by bicycle.
Where do you usually eat dinner?	I usually do club activities.
Who do you usually have lunch with?	I usually wake up at 7:00 a.m.
How do you usually come here?	I usually eat dinner at home.

(Point out that 'who' and 'with' are often used together in a question.)

(To help the students, do a listen and repeat before they write their original sentences. You say the questions and the students repeat. The correct 'WH' question beginning has been written above each phrase in the word cloud.

3. **Questions** — 下のフレーズを使って、“What / When / Where / Who / How + do you usually + 動詞...?” の質問を作ってみましょう。自分なりに考えたオリジナルの質問も作ってみましょう。

# Valentine's Day

7. February 14 is Valentine's Day, the holiday of love. Many countries such as Canada, Mexico, England, France and Japan celebrate this day. In America, boys give chocolate or flowers (usually red or pink roses) to girls but sometimes, girls give small gifts to boys, too. In addition, people often write Valentine's Day cards or *Valentines* to each other. At night, couples go out to dinner. Most restaurants are usually packed and the waiting time to get a table is sometimes two hours. The question, "Will you be my valentine?" is a very special question. It usually means that you like the other person a lot.
